Transition to Independence Process (TIP)

- Ch’Wala’s Transition to Independence Process (TIP)® Program is a stand-alone supplement to our treatment services. Depending on placement criteria, participants are invited to work with our TIP Coordinator singularly, or concurrently while in outpatient treatment, and are welcome to continue receiving TIP services post completion in Anchorage and the Valley.
- TIP is a youth-driven, strength-based, evidence-supported framework that was developed for working with youth and young adults with emotional/behavioral difficulties (EBD) to improve their real-life outcomes across Transition Domains such as Education, Employment, Career, Housing, and Community Life Functioning.

Specifically, the TIP Model® focuses on:

1. Engaging youth and young adults in their own futures planning process
2. Providing youth with developmentally appropriate, non-stigmatizing, culturally competent, and appealing services and supports
3. Involving youth and their families and other informal key players in a process that prepares and facilitates them in their movement toward greater self-sufficiency and successful achievement of their goals related to their relevant transition domains.

If you or a loved one age 16-25 of any ethnicity is in need of transition support- including learning job/life skills, money management, education support, housing, and driver’s education, TIP may be a good fit!

Connect with us at (907) 793-3600 and ask for TIP services

The TIP Model® is an evidence-supported practice that has demonstrated in numerous studies improved real-life outcomes for youth and young adults with emotional/behavioral difficulties (EBD). The California Evidenced-Based Clearinghouse for Child Welfare (CEBC) classifies The TIP Model® as a Promising Practice based on published research evidence.
